PROJECTS

- **COLLEGE MANAGEMENT SYSTEM** DEC-AP 2024
 - Developed and implemented a comprehensive College Management System (CMS) designed to streamline and automate administrative functions within a college. This system includes modules for student registration, course management, attendance tracking, grade management, and faculty assignment. The system allows for easy management of student records, simplifies course enrollment processes, and facilitates real-time communication between students, faculty, and administration. Enhanced efficiency, reduced manual work, and improved overall academic and administrative performance.
