PROFESSIONAL SUMMARY

Passionate Computer Science student currently pursuing a Bachelor of Technology at Raghu Engineering College. With a strong academic foundation from a Diploma in Computer Engineering, I have developed expertise in web development, programming, and data analytics. Skilled in building modern web applications and continuously learning new technologies including cloud computing and machine learning. Actively working on projects to improve problem-solving abilities and practical development experience.

EDUCATION

Raghu Engineering College, Visakhapatnam 2024 – 2027
B.Tech in Computer Science and Engineering

Dr. B.R.A. GMR Polytechnic College, Rajamahendravaram 2021 – 2024
Diploma in Computer Engineering (CME) — CGPA: 8.6

EXPERIENCE

Full Stack Java Intern 6 Months
Anurag IT Solutions

- Worked on Full Stack Java Development including Core Java, JDBC, Servlets, JSP, and Spring Boot.
- Assisted in building backend REST APIs and integrated them with MySQL.
- Collaborated with senior developers on debugging, testing, and implementing real-time modules.

Software Development Engineer (SDE) Intern Internship
Bluestock Fintech

- Completed internship focused on software development practices and gained hands-on experience in coding and debugging.
- Worked in a fast-paced environment and improved problem-solving skills through practical development tasks.

Artificial Intelligence & Machine Learning Intern Internship
EduSkills / AICTE

- Gained hands-on experience in Artificial Intelligence and Machine Learning concepts using Python and data analysis techniques.
- Worked with machine learning libraries and developed understanding of supervised and unsupervised learning models.

PROJECTS

College Management System Diploma Final Year Project

- Built a web-based College Management System to streamline student information, course management, and administrative tasks.
- Implemented features such as student registration, attendance management, and academic record tracking.
- Integrated backend database operations to securely store and manage institutional data.

Live Weather Application

Personal Project | [Live Demo](#) | [GitHub](#)

- Built a live weather application that retrieves real-time weather information using a weather API.
- Implemented dynamic data fetching and responsive UI to display temperature, humidity, and weather conditions.
- Designed an intuitive interface allowing users to search weather details for different cities.

Portfolio Website

Personal Project | [Live Demo](#) | [GitHub](#)

- Developed a personal portfolio website to showcase projects, skills, and technical experience.
- Implemented responsive UI and dynamic project sections using modern web technologies.
- Integrated GitHub repositories and project descriptions for easy access to work samples.

TECHNICAL SKILLS

Programming Languages: Java, Python, C++, SQL

Frontend: HTML, CSS, JavaScript

Backend: Django, REST APIs

Developer Tools: Git, GitHub, VS Code

Concepts: Data Structures & Algorithms (DSA), DBMS, Machine Learning Basics

ACHIEVEMENTS

- **AWS Academy Cloud Foundations** — Completed AWS cloud training and gained knowledge of cloud architecture, security, and deployment concepts.
- **Machine Learning with Python Certification** — IBM Cognitive Class certification focusing on machine learning algorithms and data analysis.
- **Deloitte Data Analytics Job Simulation** — Completed Deloitte's virtual job simulation and gained exposure to data analysis and business insights.

CERTIFICATIONS

- AWS Academy Graduate — Cloud Foundations
- Machine Learning with Python — IBM Cognitive Class
- Deloitte Australia — Data Analytics Job Simulation
- Python for Data Science Certification
- IT Essentials Certification
